

EHS POLICY

This Environmental and Health & Safety Policy provides the foundation for Rapiscan | AS&E operating practices and management system. The aim of this Policy is to promote collective responsibility for providing our employees with a safe and healthy workplace, confirm our responsibility to be good stewards of the environment in which we live and operate, and deliver safe, quality products and services. To that end, we make the following commitments:

- Provide safe working conditions through the proactive assessment and mitigation of workplace hazards.
- Comply with all applicable workplace safety standards and environmental laws and regulations.
- Integrate EHS into our processes and operations, including product design and development.
- Protect the environment by instituting practical sustainability measures to prevent pollution, reduce waste and conserve natural resources.
- Promote safety and environmental responsibility and encourage all employees to share in our commitment by fostering a culture of empowerment and accountability at all levels of the organization.
- Measure and review our performance and strive for continual improvement.

Rapiscan | AS&E holds our management and employees accountable for adherence to EHS processes and procedures for identifying and controlling hazards and environmental impacts.

This Policy will be communicated to employees and contractors so they are aware of, and able to comply with their responsibilities. It will be available to other interested parties upon request.
